Stargard, Poland -- April 20, 2007 -- Anawiki Games, [www.anawiki.com](http://www.anawiki.com), has announced their latest Mac OS X title, Runes of Avalon, [www.runesofavalon.com](http://www.runesofavalon.com). The game offers a unique combination of match-three and Tetris mechanics, over one hundred levels, three play modes, and an intriguing storyline. Runes includes high quality art and music as well as voice-acting for the storyline segments.

Runes of Avalon is a fun puzzle game that breaks the over-used mold of match-3 mechanics. Excellent graphics and easy to learn gameplay turns a puzzle game into an epic game. Experience over a hundred levels and enjoy probably the longest story ever seen in casual game.

Lost somewhere in the mists of time, Avalon's beauty and grace is threatened. The forests and vales whisper to you of a growing evil and Merlin, your master, has disappeared leaving Avalon unguarded. It is the ambitious and evil Morganna le Fay who is spreading a darkening corruption. Use the Rune Magic that Merlin taught you to rescue your master from Morganna's Tower. Do you have what it takes to save Avalon from Morganna?

Game features:

- 105 challenging levels in quest
- Three modes of play - Quest, Endless and Time Attack
- Boss levels enhancing gameplay
- 6 spells (power-ups)
- Two bonus games
- 14 enchanting images to reveal
- Wallpapers as rewards for completing stages
- Excellent mystic music & sfx
- Intriguing storyline
- Wonderful particle effects
- and more...

Runes of Avalon is a Universal Binary application which requires a Mac running OS X 10.3 or higher, a G4 or Intel processor, and 128 MB RAM.
