Published on 11/08/11

Fanurio Time Tracking will be turning 5 on November 10th, 2011 and to celebrate this event, it is cutting the price by 50% for 5 days. From November 10th until November 14th, a license will cost 50% less. Fanurio is a time tracking and billing software application highly appreciated by freelancers for its intuitive interface, flexible timer and ability to produce detailed invoices. Fanurio is for freelancers who prefer a professional solution to keep accurate records of their time and invoices.

Craiova, Romania - Fanurio Time Tracking will be turning 5 on November 10th, 2011 and to celebrate this event, it is cutting the price by 50% for 5 days. From November 10th until November 14th, a license will cost only $29 instead of $59. Fanurio is a time tracking and billing software application highly appreciated by freelancers for its intuitive interface, flexible timer and ability to produce detailed invoices.

"We are very happy to be here and before anything else, we want to thank all our users who have supported us over these years with their ideas and feedback." says Nicolae Cismaru, product manager for Fanurio.

Fanurio is mainly used by freelancers who prefer a professional solution over pen and paper or spreadsheets to keep accurate records of their time and invoices.

People who work on more than one computer choose Fanurio over other solutions also because
it runs on multiple platforms. Fanurio runs on Windows, Mac OS X, Linux and other flavors of Unix at no extra cost.

Pricing and Availability:
From November 10th until November 14th, a license will cost only $29 instead of $59 (or equivalent amount in other currencies). A free 15-day trial version with all the functionality of the paid version can be downloaded fom their website.
