App Cubby is proud to introduce Gas Cubby 1.0, their gas mileage and vehicle maintenance app for the iPhone and iPod Touch. Whether a hyper-miler or just need a reminder to change the oil, Gas Cubby will save money and help keep any vehicle operating at its peak. Featuring easy-to-use service reminders and beautiful, full-screen charts, it's the ultimate tool for tracking gas mileage and vehicle maintenance. Keeping tabs on your vehicle has never been so easy.

San Marcos, Texas - App Cubby is proud to introduce Gas Cubby 1.0, their gas mileage and vehicle maintenance app for the iPhone and iPod Touch. Whether a hyper-miler or just need a reminder to change the oil, Gas Cubby will save money and help keep any vehicle operating at its peak. Featuring easy-to-use service reminders and beautiful, full-screen charts, it's the ultimate tool for tracking gas mileage and vehicle maintenance. Keeping tabs on your vehicle has never been so easy.

With a focus on ease-of-use, Gas Cubby supports multiple vehicles, and offers excellent charts for miles-per-gallon (MPG), gas price, gas expenses, as well as service expenses. Advanced searching and filtering allow for in depth analysis and will automatically generate new charts based on the filtered data. Users may store vehicle data, such as VIN, license plate, and insurance policy. Among Gas Cubby's most helpful features are its customizable service reminders.

Data fields can be turned on an off, allowing the user to enter as much or as little information as necessary. Customizable tags allow grouping or categorization of records. If further visualization or analysis is needed, a few quick taps will create an Excel-compatible (CSV) report. Once a report has been generated, it can be emailed to anyone as an attachment using App Cubby's secure, custom mail service.

Feature highlights include:

- * Tracks gas mileage and vehicle maintenance
- * Charts: MPG, gas price, gas expenses, service expenses
- * Charts update as data is filtered
- * Customizable service reminders
- * Supports multiple vehicles
- * Store vehicle data: VIN, License Plate, and Insurance Policy
- * Turn data fields on and off
- * Excel compatible email reports (CSV attachment)
- * Easily search, sort, and filter records
- * Customizable tags
- * Number Pad or Odometer style entry
- * If data entry is interrupted by a phone call, the data will be stored and retrieved on next launch
