Today, CS Odessa is a leading software development company that builds critical business tools for the desktop. They maintain its leadership in a competitive market with new innovations in its product mix.

Odessa, Ukraine - Computer Systems Odessa announces its 15th Anniversary providing Information Management, Project Management and Business Diagramming solutions to organizations and individuals. Founded in 1993 as a provider of complex custom business and personal productivity software solutions for individuals and businesses for both the Mac and PC, the company has focused on the development of its own product line known as ConceptDraw since 1997.

With the mission to design, build and support progressive software that enables users to better support and leverage individuals, teams, data, and resources to work smarter, faster because of better information visualization tools, clear data presentation and improved collaboration capability, CS Odessa has hundreds of thousands of registered users across all industries, around the world.

"We consider CS Odessa a customer-oriented company that strives to enable our customers to move their business forward," states Gregory Zhukov, President at CS Odessa, "Based on market trends analysis and feedback we received from hundreds of thousands of our users, we are constantly developing innovative technologies and highly functional productive solutions."

Today, CS Odessa is a leading software development company that builds critical business tools for the desktop. They maintain its leadership in a competitive market with new innovations in its product mix. CS Odessa has extensive knowledge in developing highly functional cross-platform productivity tools, based on its 15 plus years of global market experience:

- \* ConceptDraw Office - Ultimate productivity tool for knowledge workers
- \* ConceptDraw PRO - Business diagramming and drawing software
- \* ConceptDraw MINDMAP - Brainstorming tool using standard mind mapping techniques to help organize ideas and tasks
- \* ConceptDraw PROJECT - Professional project management software

With the recent, and much anticipated, launch of the comprehensive information technology product suite, ConceptDraw Office, CS Odessa has enabled knowledge workers to interact with data in a visual manner, as well as obtain and provide critical insight from all types of data. ConceptDraw Office reflects the entire collective CS Odessa expertise in developing leading market business applications, data visualization technologies and project management tools.

With a strong technical support team and a dedicated sales group, the concept of real customer care is apparent. The unique individual approach to each customer is one of the many reasons CS Odessa customers are loyal and satisfied fans of ConceptDraw products.

With over 15 years of global market experience, CS Odessa has gained an extensive knowledge in developing highly functional cross-platform productivity tools. For the last 15 years, CS Odessa has demonstrated a consistent excellence with their products and services. Their success is due very much to their vision, corporate culture, and a
