Bellevue, WA - Eltima Software, a global software Development Company, has released SyncMate version 1.4. SyncMate is presented in two versions, Free and Expert, and provides its users even more opportunities than before. SyncMate FREE Edition is a perfect solution for information management. It is FREE and easy-to-use synchronizer for Mac and Pocket PC/Smartphone, that will help you keep all your documents, text messages, contacts, calendar entries and events and other stuff well organized.

With SyncMate Free edition you can synchronize applications like Address Book, iCal, etc. Also you can easily read SMS directly from your Mac, check detailed device information (battery state, etc) and visually analyze memory usage. SyncMate Expert Edition (available for a small fee) grants you even more synchronization possibilities.

With Expert Edition it is very handy to synchronize time and share Internet between your Mac and your mobile device, which is very important for all mobile people. Synchronize iTunes and iPhoto to keep all your favorite music and pictures within a click of a button. Expert Edition allows you to synchronize separate folders. Notes, and To Do's synchronization is also available with SyncMate Expert Edition! You can view all the applications installed on PDA from your Mac.

Manage all text messages not even touching your Pocket PC! Send, receive, create and delete SMS when working at your Mac - that's what SyncMate Expert gives you. With SyncMate Expert Edition you can even sync your mail. SyncMate installation is very easy. You do not have to unlock device in order to install SyncMate. Mac can be connected to mobile device via USB or Wi-Fi.
