

## **Maggie the Gardener 2 released**

Published on 04/27/07

Maggie the Gardener 2 is an easy to use and fun to play with garden construction set. Whenever it's raining or you have just a 15 minutes break and would like to do some gardening this is the game for you. Decorate your own virtual garden with flowers, bushes, sculptures, and small fountains. Great visuals, beautiful music and sound effects. Become a member of online community and share your garden designs with friends.

ANAWIKI, creators of Runes of Avalon, is proud to announce release of Maggie the Gardener 2 for Mac, [www.anawiki.com/game\\_mg.php](http://www.anawiki.com/game_mg.php). Maggie is an unique gardening game that will let you create gardens of your dreams and reveal your creativity. Share your best desings with friends in an online gallery. Great high quality graphics (1024x768) and charming music makes this title suitable for all ages. Maggie the Gardener is an Universal Binary application designed to work with OSX 10.3+.

"Love of nature is in all of us", says Roman Budzowski, CEO of ANAWIKI. "We wanted to create a game for little ones, that will let them play in garden, but the more we worked on Maggie, the more we were sure that it will be fun for older ones too."
