It provides the user with the options to color images, draw new ones or import images to add special effects. It has lots of modes and features that distinguishes it from other apps.

Ramallah, Palestinian Territory, Occupied - Individual Developer Sami Ghawi is pleased to announce that his latest application "WeColor Christmas - iPad 1.0" is now available in Apple's App store. WeColor Christmas Edition is an exciting educational and entertainment application for kids of all ages.

WeColor is an interactive coloring book for all ages. It provides the user with the options to color images, draw new ones or import images to add special effects. WeColor has lots of modes and features that distinguishes it from other available apps. The user can color freely with the modes that are provided (Finger painting, In-line painting, bucket painting), or draw his/her own images.

This version of weColor is the Christmas edition. It contains many black & white images of one of Christmas to color and share them. It provides endless fun to the kids when drawing and coloring with Christmas images.

WeColor has many modes for coloring:

- * Color Black & White images that are provided in the edition
- * Draw new images from scratch
- * Import images from your gallery as colored or grayscale
- * Load the images that was previously saved to complete them or change them

WeColor has lots of features as well that are appealing to the users and distinguishes it from any other application:

- * Huge amount of available colors. The most common colors are provided as swatches and a color wheel has all the other colors that you need
- * 4 Brush sizes
- * Stickers to decorate the image
- * Saving image to be used later

3 Modes of coloring:

- * Finger Brushing: Draw with your finger freely
- * In-line Brushing: Draw with your finger without going pass the borders of the image
- * Bucket painting: Paint all the closed area with a color

After the user is done with the image, there are multiple possibilities to share it with the people. These possibilities include:

- * Sharing the image on Facebook
- * Tweet the image with your twitter account
- * Copy the image so you can paste it in another app.
- * E-mail the picture to your friends and family
- * Save the image to your iPad gallery.

Device Requirements:

- * Compatible with iPad
- * Requires iOS 4.0 or later

prMac: Publish Once, Broadcast the World :: <http://prmac.com>

* 15.4 MB

Supported Languages:

* English

Pricing and Availability:

WeColor Christmas 1.0 is only \$0.99 USD (or equivalent amount in other currencies) and available worldwide exclusively through the App Store in the Education category.
