

## Graphic Node Introduces a New Wallpaper App for iOS

Published on 12/16/11

Graphic Node today announces Screen Oven 1.1, their brand new wallpaper app for iOS. Users can adorn the screens of their devices with one of nearly 500 backgrounds and tens of funny frames. The background collection is classified by style into four categories. The Photo category contains over 100 high-quality photos depicting nature, food, and everyday objects. Textures include a number of familiar and unexpected patterns. Luminous offers tens of neon-light ornaments, and much much more.

Sakiai, Lithuania - Graphic Node, a graphic design company that specializes in creating themes, templates, and illustrations for Mac OS X, today is thrilled to announce the release of a brand new wallpaper app for iOS, Screen Oven. iPhone or iPad users can download the app from the iTunes App Store and adorn the screens of their devices with one of nearly 500 backgrounds and tens of funny frames.

Graphic Node's Screen Oven offers users a great supply of backgrounds to make the screens of their devices more exciting. The 500-piece background collection is classified by style into four categories. The Photo category contains over 100 high-quality photos depicting nature, food, and everyday objects. Textures include a number of familiar and unexpected patterns. Luminous offers tens of neon-light ornaments, and Abstract contains various 2D and 3D backgrounds.

To customize their screens further, users can supplement their selected backgrounds with a line of exciting photo frames or choose among tens of funky avatars, which can be used as screen backgrounds or assigned to contacts. The frames can also be combined with users' own photos.

"With Screen Oven, we tried to create a little nice app that would be both useful and simply fun," said Jolita Unguvaitiene, the general manager of Graphic Node. "iPhone and iPad owners glance at their devices hundreds of times a day, and it's always nice to look at something special."

### Device Requirements:

- \* iPhone 3GS, iPhone 4, iPhone 4S, 3/4G iPod touch and iPad
- \* Requires iOS 4.3 or later
- \* 168 MB
