

## **Contacts Duster Is Now the Easiest Contacts Manager for iOS**

Published on 12/19/11

MyClickApps LLC today announces Contacts Duster 2.7, an update to their popular contacts utility for iOS. Address book maintenance has never been so easy. User-friendly and highly-functional, Contacts Duster offers an easy way to clean up duplicate names, email addresses, or phone numbers. Easily view, merge and purge multiple entries. Version 2.7 adds the ability to batch-delete or share contacts, enhanced in-contact duplicate detection, the option to delete all duplicates, and small bug fixes.

Wilmington, Delaware - MyClickApps LLC today is pleased to announce a much-anticipated update to their universal iOS app, Contacts Duster. Not only has the app already won praise from users around the world, but the newly released software update makes merging and eliminating duplicated address book entries as quick and easy as possible. By popular demand, users can now batch delete and share contacts and even edit entries from within the app. Address book maintenance has never been so easy.

Contacts Duster has always been user-friendly and highly-functional. Providing an easy way to clean up duplicate names, email addresses, or phone numbers for iOS users. Within seconds, and just a few touches of the screen, users can view, merge and purge multiple entries.

Contacts Duster has already exploded with popularity among iOS users and now it's better than ever. Contacts Duster is now the easiest way to share or delete contacts! Based on our customers' suggestions and requests, we have added the ability to batch-delete or share contacts. Additional features included in the update include: enhanced in-contact duplicate detection, the option to delete all duplicates, and small bug fixes.

Contacts Duster is an universal easy, convenient contacts management tool. The app thoroughly analyzes your contacts and presents a full report in both list form and graph form. At a quick glance you will see exactly how many contacts you have and how many duplicates and zombies are contained within. With the simple touch of a button you can merge and purge duplicate contacts in your address book. Users can gain a full understanding of their address book's contents with the first-ever mobile app to present in graph form.
