

A Better Finder Rename 8.0.5 adds new number handling feature

Published on 12/10/08

publicspace.net announces the fifth minor update to the recently released A Better Finder Rename 8. Version 8.0.5 further expands the renaming utility's ability to handle sequence numbers in file names. The new release allows blocks of numbers to be selectively removed from existing file names. A Better Finder Rename has long been the most comprehensive file renaming solution for the Macintosh.

Luxembourg City, Luxembourg - publicspace.net announces the fifth minor update to the recently released A Better Finder Rename 8. The new version adds the ability to selectively remove blocks of numbers from file names. The utility is already well known for its ability to create and manipulate sequence numbers.

Version 8.0 delivered a new user interface, save-able presets, automatic software updates and a brand new multi-threaded renaming engine that enables the software to automatically resolve file name conflicts, re-order renames to avoid deadlocks and provide an improved interactive experience.

System Requirements:

- * Mac OS X 10.5 Leopard
- * Universal Binary for Intel and PowerPC
- * 5 MB Hard Drive space

Pricing and Availability:

A Better Finder Rename may be purchased for \$24.95 (USD). Family, Business and Enterprise licensing is also available. Customers may chose to include a "forever upgrade" with their purchase.

A Better Finder Rename has long been the most comprehensive file renaming solution for the Macintosh and has transformed the tedious and time-consuming task of renaming multiple files into a simple matter of seconds for thousands of creative professionals across the world. It is based on over 10 years of listening to our users and addressing their requirements to the best of our abilities.
