

BKeeney Software Updates Font Pilot

Published on 12/12/08

BKeeney Software Inc. announces the availability of an update of their font management tool, Font Pilot. Version 2.4 changes all branding and registration codes from Koingo Software to BKeeney Software. Font Pilot is a utility designed to make managing the fonts on your Macintosh OS X computer simple and easy.

Lenexa, KS - BKeeney Software Inc. announces the availability of an update of their font management tool, Font Pilot. Version 2.4 changes all branding and registration codes from Koingo Software to BKeeney Software. All users need to obtain new registration codes. Existing licensed users can request a coupon code to get Slideshow Magic for free by sending an email with their existing Slideshow Magic registration code.

About Font Pilot:

Font Pilot is a utility designed to make managing the fonts on your Macintosh OS X computer simple and easy. Using its superior font management engine, Font Pilot plunges into your system and digs up the dirt on your fonts. Copyrights, licenses, descriptions, postscript names, file sizes, locations, and so much more!

Font Pilot allows you to browse an entire folder of fonts that are NOT installed with a visual preview! While viewing the slideshow, click the Install button at any time to have that font permanently installed and activated on the computer. No fuss, no gimmicks, just pure functionality. Also activate (without installing) fonts on the fly!

Pricing and Availability:

New users can purchase Font Pilot for \$15.95 (USD). A free 14-day trial can be downloaded from BKeeney Software's website.
