

Return Self Software releases Avenir 2.3.4

Published on 05/09/07

Return Self Software announced the release of Avenir 2.3.4, its novel authoring software for Mac OS X, providing unique outlining features for tracking characters, locations, scenes, research and more along with a rich text editor with support for inline annotations. This version allows annotating text in all views, provides improved printing support, and fixes several minor bugs.

FOR IMMEDIATE RELEASE

Return Self Software announced the release of Avenir 2.3.4, its novel authoring software for Mac OS X, providing unique outlining features for tracking characters, locations, scenes, research and more along with a rich text editor with support for inline annotations. This version allows annotating text in all views, provides improved printing support, and fixes several minor bugs.

Avenir is available today as a 30 day trial and sells for \$29.95. Avenir 2.3 is a universal binary and requires Mac OS 10.4 or higher. For more information on Avenir, visit the Return Self Website at <http://returnself.com/>.
