

Shiny Development Ltd. announces Charades for iPhone

Published on 12/17/08

Shiny Development Ltd. is proud to announce Charades 1.0 for the iPhone, a fun application for the holiday season that brings iPhone gaming into the living room for everyone to enjoy. Charades for iPhone is a digital assistant for the popular family game, instead of struggling to think of a film, play, book, song or musical to mime out - simply push the lever, a drumroll begins and the curtain is raised on a new Charades challenge.

Chester, United Kingdom - Shiny Development Ltd. is proud to announce Charades 1.0 for the iPhone, a fun application for the holiday season that brings iPhone gaming into the living room for everyone to enjoy. Charades for iPhone is a digital assistant for the popular family game, instead of struggling to think of a film, play, book, song or musical to mime out - simply push the lever, a drumroll begins and the curtain is raised on a new Charades challenge.

A timeless game for all ages, the game generates new challenges from a pool of over 1000 individual charades so you will never run out of ideas. The setting for the game is a beautifully drawn theater which has been smoothly animated to bring it to life. Each charade comes with a link to its full Wikipedia article - perfect for resolving those arguments about who made it, starred in it or sang it first.

Cheaper and more convenient than taking a pack of charades cards, with Charades for iPhone you can be ready to mime at a moments notice. Bring out your inner Marcel Marceau this year and have fun with your family and friends.

Since its launch in 2007, The iPhone has proved to be a breakthrough device in terms of bringing mobile apps and gaming to a whole new group of people. Charades for iPhone continues this trend bringing the classic parlour game into the 21st century. With its easy to use interface it provides a real world mobile gaming experience accessible to all ages. Who would have thought Grandma or Grandpa would be playing an iPhone game this Holiday season!

Minimum Requirements:

* Any iPhone or iPod Touch running the v2.0 software update
