About Contactizer Pro:

Contactizer Pro 3.6 is an all-in-one solution for managing, sharing and organizing your personal and business information. Contactizer Pro 3.6 makes your contact management experience more efficient, productive and inventive. Following the prodigious success of its predecessor, many users worldwide continue to choose Contactizer Pro 3.6 for their calendar, organizational and management needs. Contactizer Pro, specifically built for Mac OS X, provides a wealth of powerful PIM features, all through an innovative, elegant and intuitive interface.

Designed specifically for small business, Contactizer is the #1 information management solution - it redefines contact management by providing a wealth of revolutionary features that maximize your productivity. Contactizer is built on top of powerful Mac OS X technologies (Cocoa, Spotlight, Core Image, Core Data and more), resulting in an outstanding user experience and performance. Keep looking for updates, as we add innovative new features to Contactizer.

Contactizer 3.6 sports a Cover Flow mode (Leopard Only feature) that shows your contacts in a business card like presentation, a Task Quick Entry Panel (even works when Contactizer is not running), a new multi-calendar sync system and many user interface enhancements expanding your productivity.

Contactizer is fully compatible with Mac OS X Tiger and Mac OS X Leopard and it is distributed as a Universal Binary and runs natively on both PowerPC and Intel Macs.
