

New Valentine Cards And Frames For eCard Express iPhone And iPad Apps

Published on 02/13/12

Bartsoft Inc, has launched new Valentine cards and frames for both versions of the application, eCard Express for iPhone and eCard Express HD for iPad. Available in categories for Love & Friendship, Frames, Thank You, Happy Birthday, all of these new cards are free of charge for current eCard Express users. The total number of cards for each application now exceeds 250. Update includes both nice classical and humorous cartoon style cards and frames for existing app categories.

Mississauga, Canada - Announcing that Bartsoft Inc., a Canadian based company, has published new Valentine cards and frames for both versions of the application, eCard Express for iPhone and eCard Express HD for iPad. This new update includes both nice classical and humorous cartoon style cards and frames for existing application categories like Love & Friendship, Frames, Thank You, Happy Birthday.

All of these new cards are free of charge for current eCard Express users. And now the total number of cards for each application exceeds 250!

eCard Express application enables users to create and customize greeting cards with high quality stickers, frames, and their own photos or images from the iPhone / iPad photo library. The app also allows users to save their creation to "My Cards", which is essentially an in-app library of all user-saved creations and a very convenient way to put together eCards for iPod users on the go, since it does not require a network connection until actually sending the cards.

While it may seem complicated, eCard Express is very intuitive and straightforward even for a novice iPhone user. With a very well designed user interface and Retina display graphics it makes the creation process significantly more enjoyable.

Device Requirements:

- * iPhone, iPod touch, iPad
- * Requires iOS 3.0 or later

Pricing and Availability:

eCard Express for iPhone and eCard Express HD for iPad are available in the App Store worldwide in the Lifestyle category for only \$1.99 (USD) each. Press release created by AppShrink.
