

## Cookie Featured in TheMacBundles

Published on 02/14/12

SweetP Productions has announced that its popular privacy/cookie management application Cookie is available now as part of TheMacBundles' February Bundle, a bundle of 10 great Mac products for one low price. Cookie, helps you to manage exactly who can access information about your online activities, all in one convenient location. TheMacBundles provides users with the same great software, support, licenses, and upgrade benefits that apply to users who pay the full retail price for the software.

Surfers Paradise, Australia - Cookie is included in TheMacBundles' February Bundle as well as in TheMacBundles' innovative new BYOB (Build Your Own Bundle) stores. TheMacBundles provides users with the same great software, support, licenses, and upgrade benefits that apply to users who pay the full retail price for the software.

Cookie, helps you to manage exactly who can access information about your online activities, all in one convenient location. With a clear and intuitive interface, Cookie is a must have application for anyone serious about protecting their personal information. After an initial simple setup, Cookie requires minimal effort to keep your computer clear from unwanted data-mining.

Cookie scans your computer for ALL types of Cookies, from all the top browsers, and is easily configured to remove all unwanted/tracking-advertising cookies. Cookie is super easy to use, just configure it once, and take control of your sensitive personal information. Cookie can also be configured to clear all browser caches, and browser history giving you added peace of mind.

### Features:
