

CS Odessa introduces a new Rapid UML solution for ConceptDraw PRO v9

Published on 02/14/12

CS Odessa, developer of the industry leading cross platform business graphics and diagramming tool, ConceptDraw PRO v9, has today announced the availability of a new Rapid UML Solution, in the Universal Diagramming Area of the ConceptDraw Solution Park. The Solution, based on ConceptDraw PRO's RapidDraw feature, allows you to build diagrams in an instant and is available for download at no charge to current owners of ConceptDraw PRO v9.

San Jose, California - CS Odessa, developer of the industry leading cross platform business graphics and diagramming tool, ConceptDraw PRO v9, has today announced the availability of a new Rapid UML Solution, in the Universal Diagramming Area of the ConceptDraw Solution Park. The Solution, based on ConceptDraw PRO's RapidDraw feature, allows you to build diagrams in an instant and is available for download at no charge to current owners of ConceptDraw PRO v9.

For users with UML experience, this new solution presents an opportunity to create many types of diagrams in moments, using the intuitive RapidDraw interface. This new drawing technique removes the laborious and time intensive aspects of creating UML diagrams - it's simple point-and-click design helps create professional, presentation ready diagrams quickly and efficiently. There is also more to come from RapidDraw, as CS Odessa expands their Solution Park. Watch for more Solutions utilizing this exciting functionality!

The UML diagrams in this Solution are divided into three broad categories: Structure Diagrams, Behavior Diagrams, and Interaction Diagrams. The seven Structure Diagrams are the core components that must be present in any system being modeled. These include Class, Component, Composite Structure, Deployment, Object, Package, and Profile diagrams. To assign functionality, we have three Behavior Diagrams: Activity, UML State Machine, and Use Case diagrams. The Interaction subgroup controls the flow of control and data, including diagrams for Communication, Interaction Overview, Sequence, and Timing.
