The Omegabundle Group is a group of cooperative, platform developers from around the world to provide high performance, vertical market tools and resources in a high value bundle. Multiple bundles are released each year, addressing different vertical markets. Omegabundle for LiveCode 2012 bands together the top third party tool publishers that provide tools for the desktop, server and mobile platforms of LiveCode development. Omegabundle is a brand of Mirye Software, an international software publisher, a division of Proactive International, the strategic distribution channel agency for high tech products. Mirye Software publishes, distributes and supports multi-platform vertical market products, such as development tools, 3D animation products and content distribution for the digital and film industries. Omegabundle is co-sponsored by Paradigma Software, makers of high performance development tools. Copyright (C) 2012 The Omegabundle Group. All Rights Reserved.
