

Photo Walk Event at Apple's World Wide Developer Conference 2007

Published on 05/14/07

A free event for Developers and Photographers during Apple's World Wide Developer Conference 2007.

Come along on a free photo walk through America's most scenic city, San Francisco. The walk features opportunities to photograph the Golden Gate Bridge at Sunset, Alcatraz Island, Fisherman's Wharf, Pier 17, the Bay Bridge, and more.

Join Inside Mac Radio hosts, Scott Sheppard and Brad Wright, and Pro Photographer Derrick Story, on an epic walk through San Francisco. We will gather in front of the main entrance to Moscone West, at 4:00 pm, June 11th, 2007.

From there, we plan to hop the San Francisco Muni Railway to the Fisherman's Wharf area (\$1.50 fare per person is not included as part of the event). From there we will walk to Aquatic Park to catch the sun setting on the Golden Gate Bridge. From Aquatic Park, we will along the Embarcadero to the Bay Bridge. We'll then catch the Muni back from there.
