

Zerion Software releases Rochambeau: Rock-Paper-Scissors Game for iPhone

Published on 01/08/09

Zerion Software has released 'Rochambeau', their Rock-Paper-Scissors game for iPhone and iPod Touch. The new game is based on the classic version of game play, but is far from the run-of-the-mill variety. Choose one of the cartoon characters and play against the capable computer adversary, or one of your friends on your AIM buddy list.

Herndon, Virginia - Zerion Software, an information technology firm that specializes in enterprise and mobile application development, has released their first iPhone game to the Apple App Store called 'Rochambeau'; aka (Rock-Paper-Scissors, RPS).

The new game is based on the classic version of game play, but is far from the run-of-the-mill variety. Choose one of the cartoon characters and play against the capable computer adversary, or one of your friends on your AIM buddy list. Shake your iPhone or iPodTouch to make your moves, and then watch the game unfold with creative animation and sound effects. Choose your cartoon player and play against the capable 'bot' or friends across the globe.

"We took a look at the other like games on the market and improved on all aspects of game play, integrating networked capability, chat support, along with introducing a variety of characters and game play styles. This is an excellent showcase of our development capabilities in this new and exciting space." Sze Wong, President of Zerion Consulting.

"We are especially excited about our strategic partnership with the biggest iPhone game distributor in the market, Flipside5 (FS5). I am sure there will be a lot of opportunities to work together in the future."

Game Features

- * Local or Online Play (*Networked)
- * Two Online Play modes - First Available and AIM
- * AIM chat support prior to game start and during game-play, so you can chat at anytime with your friends
