New York, New York - MeYuMe is guiding players on a perilous trip into primitive-filled jungles with the immediate release of their latest action-packed escapade, Cannibal Cookout on iPhone and iPad. Deliciously devious and absolutely enticing, Cannibal Cookout tasks players with helping the ambitious Nibblers Hector and Elvira become Head Chefs by cooking a cookbook full of tasty dishes. The catch for these cannibal culinarians is that they've developed a taste for and only eat their fellow tribesmen. Working against the clock, players must capture the rowdy Nibblers while fending off a growing plague of obstacles, including: natural elements, policemen, firemen, helicopters, trolls, and much more!

Cannibal Cookout tests players' ability to multi-task their defenses as well as their cooking aptitude. Players are challenged to man the fire, chop wood, and add ingredients to their pot before the cauldron is destroyed or times runs out. Items gathered in each round count towards the completion of a separate recipe. Defend against a wide range of enemies, from stealthy Ninjas to UFOs, with an elaborate collection of weapons such as Magnetic Traps and Blast Grenades! Along the journey, players must gather a host of quirky ingredients for lively recipes while they collect coins to buy an assortment of cooking supplies, weapons and additional items.

Featuring a plethora of memorable characters and over 70 levels of pressure cooking fun, Cannibal Cookout is sure to push players' wits and cooking skills to the limit. Additional highlights include the Cannibal Comic that unlocks the Nibblers' amazing past and explains what caused Hector and Elvira's cannibalistic cravings, tons of funny and cute animations to charm all those who dare to court the kitchen, and varying game elements that influence the rate at which Nibblers cook, so be sure take advantage of the bubbling midday heat!

"The launch of Cannibal Cookout marks an exciting turn for MeYuMe, a completely different extension to our thriving list of popular games," states MeYuMe Director Scott Wilson-Billing. "Players are faced with numerous games which emulate existing titles. Cannibal Cookout is original in that our designers went to great lengths to present an uncharted theme and quirky animations in a polished manner. Cannibal Cookout perfectly blends an interesting storyline, captivating features, and beautiful graphics in a way that has yet to be seen among its competitors."

Xtremics was setup in 2003 with a vision to create an IT services company that would deliver projects on time, on budget and to an agreed quality, every time. In 2009, the company realized that it needed to develop skills within the mobile software industry and spun off a small games company MeYuMe with the aim of re-using the skills learnt from developing games for the iPhone and iPod touch in its core business. MeYuMe is now a leading publisher and developer for phone games and mobile games, built on a history of successful, quality, unique and fun games for everyone. Copyright (C) 2012 Xtremics.
