Published on 04/02/12

Independent game studio, Solverlabs, is proud to announce the release of the newest update to their popular brain puzzle game "River Test Trilogy" for iOS. The update adds two new levels to the app and contains updated graphics to support high resolution retina display in the new iPad. Now available as a free download on the Apple App Store for a limited time only in association with DailyAppDream, the game's five fun and challenging brain puzzles take your logical thinking to its limits.

Kiev, Ukraine - Solverlabs, an independent game studio is proud to announce the release of the newest update to their highly successful and very popular brain puzzle game "River Test Trilogy" for iOS. Now available as a Free download on the App Store for a limited time only in association with DailyAppDream, the game's five brain puzzles take your logical thinking to its limits.

Version 2.0 update adds 2 new levels to the app. The game has also got renamed from "River Test Trilogy" to simply "The River Tests" as of now it contains five unique, challenging and fun brain puzzles. The new version of the app also contains updated graphics to support high resolution retina display in the new iPad, ability to share the app with the friends via Facebook and Twitter and purchase solutions to All levels for only \$0.99. Solverlabs is planning to release new version 2.1 soon with the 3 new levels and game center integration so that users can compare their scores and achievements with their friends and globally.

"The River Tests" is the collection of River Crossing puzzles for your iPhone and iPad. It is believed that only 10% of the people on the planet can solve all tests on time. Each level is a separate test that will take your logical thinking to its limits. Do you think you've got what it takes? Do you think you're one of the 10% who can figure these riddles out? Give it a try, and test your skills to see if you're the smart one.

Every level of "The River Tests" has detailed instructions, which describe set of rules for every game. Please read them carefully before starting to play. Your ultimate goal in every test is to have all characters cross the river following certain rules and restrictions. The fewer moves you use the better. The less time it takes you to solve every game the better. Enjoy and Good Luck in crossing all the rivers!

### Features:
