

## Contour Design Announces: Why I Love My Shuttle Video Contest

Published on 04/02/12

Contour Design, a market leader in multimedia control surfaces, has announced a new video contest for users of its ShuttlePRO and ShuttleXpress multimedia controllers. Shuttle users are invited to create a short video, 60 seconds or less, that demonstrates why they love their Shuttle device. Entries will be accepted through April 30, 2012 and Shuttle users will be able to vote for their favorites. Winners will be announced in June 2012.

Windham, New Hampshire - Contour Design, a market leader in multimedia control surfaces, has announced a new video contest for users of its ShuttlePRO and ShuttleXpress multimedia controllers.

Shuttle users are invited to create a short video (60 seconds or less) that demonstrates why they love their Shuttle device. Entries will be accepted through April 30, 2012 and Shuttle users will be able to vote for their favorites. Winners will be announced in June 2012 and the following prizes will be awarded:

- \* 1st Prize: Apple iPad (3rd generation, \$499.99 value)
- \* 2nd Prize: Contour RollerMouse Free2 (\$239.95 value)
- \* 3rd Prize: PowerProduction Martini QuickShot Creator (\$199 value)
- \* 4th Prize: Boris Continuum Lens Blur Unit (\$99 value)
- \* 5th Prize: Eye Scream Factory DVD Art Professional (\$99 value)

The winner will be announced via Contour Design's June Shuttle e-newsletter. More information regarding the contest is available on the Contour Design website.

### The Perfect Tool for Every Application:

ShuttlePRO v2 is a multi-functional multimedia controller for audio and video editing, photography, gaming, and many other applications. Designed for ergonomic integrity and maximum productivity, the ShuttlePRO v2 allows one-handed access to 15 fully-programmable buttons, a jog knob, and a spring-loaded shuttle wheel. At the head of the ShuttlePRO v2 are nine programmable buttons complete with crystal clear removable keycaps for labeling and ease of reference. The inner ring or 'jog knob' at the center of the ShuttlePRO v2 rotates a full 360 to provide precise frame-by-frame control while the outer black ring or rubberized 'shuttle wheel' facilitates fast forward and rewind. The jog and shuttle can also be configured for many other purposes including scrolling, volume control, and sequencing.

Based on the award-winning ShuttlePRO v2 multimedia controller, the compact ShuttleXpress features five oversized programmable buttons, a jog knob, and a spring loaded shuttle wheel. The smaller footprint makes it ideal for travel and tight work spaces. The ShuttleXpress can be used by itself or alongside a ShuttlePRO for enhanced cooperative control.

### Pricing and Availability:

The ShuttlePRO v2 and ShuttleXpress are available from Contour Design's worldwide reseller channel and the Contour Design website for MSRPs of \$109.95 USD and \$59.95 USD, respectively.
