

More iPhone Developer Courses announced after successful launch in UK

Published on 01/27/09

Due to a great reception in December 2008, Intrinsic Development Corp. Ltd. announces additional iPhone Developer Training Courses. The courses are also available in New York and offer developers endless opportunities in this exciting, dynamic market. The course objective is to enable delegates to become proficient users of the Software Development Kit and become part of this new community of developers. The next UK course will be held on the 2nd - 4th March, London SE1

Fleet, UK - Due to a great reception in December 2008, Intrinsic Development Corp. (UK) Ltd. announces additional iPhone Developer Training Courses. The courses are also available in New York and offer developers endless opportunities in this exciting, dynamic market. The next UK course will be held on the 2nd - 4th March, London SE1

One of the delegates who attended in December said: "I attended the iPhone SDK course held in Basingstoke in December 2008. I found the course informative, stimulating and most enjoyable. I now have the technical skills to improve my iPhone application - PocketPhonics. Thanks to Chris Walters and Julio Baros, 2009 is off to a very positive start for my business." John Friend, appsinmypocket, London. Makers of PocketPhonics - the leading education applications for children aged 3 to 7.

The course objective is to enable delegates to become proficient users of the Software Development Kit and become part of this new community of developers. They will get to know the essentials of Objective-C and Cocoa Touch as well as learning the tools, libraries, concepts, and the most effective implementation methods, with plenty of hands-on exercises to reinforce it all.

Delegates will learn to use Xcode, Interface Builder, and the UIKit framework, enabling the development of iPhone applications that take full advantage of many of the powerful and sophisticated features of this amazing new platform. In summary they will:

- * Learn basic and advanced features of Objective-C
- * Get up to speed fast on Xcode and Interface Builder
- * Discover time saving tips and techniques used by the pros
- * Learn how to design, code, build, and debug iPhone applications

The next UK course will be held on the 2nd - 4th March 2009, London SE1. (the venue is a short walk from Waterloo Station). The course has been developed by About Objects Inc., a premier IT training and Consultancy Company headquartered in Reston, VA.
