

Cutout Fighter 1.5 - Retro, Arcade, Paper Game - Free for Limited Time

Published on 04/24/12

Today Eligo Games introduces Cutout Fighter 1.5 for iOS, which is available for free Limited Time. It is a Retro style game based on a fast-paced 2D fighter game engine utilizing pixelated-style graphics with blood free paper effects and mini games inside of it. Set in a world where everything, including the characters, is made out of paper, players must fight their way through levels of opponents to reach, battle and destroy the paper-consuming nemesis, The Black Hole.

Vilnius, Lithuania - Eligo Games today is pleased to introduce Cutout Fighter 1.5 for iOS, which is available for free Limited Time. It is a Retro style game based on a fast-paced 2D fighter game engine utilizing pixelated-style graphics with blood free paper effects and mini games inside of it. Set in a world where everything, including the characters, is made out of paper, players must fight their way through levels of opponents to reach, battle and destroy the paper-consuming nemesis, The Black Hole. With the survival of Paper World on the line, players must cut, slash, tear and dissolve opponents, to reach the powerful boss and win the game.

"Cutout Fighter is the 2D casual fighting game you've been waiting for," stated Eligo Games' CEO Pavel Laurs. "Created for gamers by gamers, available free for a limited time and injected with mini games, Cutout Fighter throws you into Paper World, where you'll have to build your skill to feel free to leave."

Cutout Fighter's imaginative storyline blurs the line between game and reality. Set in Pixel Universe's Paper World, in the depths of the Game Designer's mind, the peaceful cutout paper inhabitants must battle a vengeful creature created and discarded by the Game Designer. This creature, The Black Hole, wants to destroy all of the paper inhabitants of Paper World. To save their world, the paper characters must fight other paper characters to advance levels and to destroy the Black Hole.

Choosing from seven characters and seven battle settings, players battle with kicks, punches, jumps, and specialized moves like cuts, tears, and dissolves, to defeat opponents. Much more than a simple push button fighter, Cutout Fighter players have special Paper Overdrive challenges, where they compete against the clock to employ specialized fighting moves.

Timed Paper Overdrives are divided into four categories according to the type of damage they inflict: Cut, Tear, Dissolve, and Cremate. In Cut Paper Overdrives, players must accomplish tasks such as using finger swipes to trace slash lines and inflict damage on competitors. In Tear Paper Overdrives, player tasks include trying to beat the clock in tearing limbs from opponents using ropes and gears. In Dissolve Paper Overdrives, players complete timed tasks such as filling test tubes with the correct potion formula to dissolve an opponent. In the Cremate Paper Overdrive, players must construct a flamethrower before time runs out, to incinerate their opponent.

With over 1,500 hand-drawn images, an 8-bit music soundtrack, and more than 200 sound effects, Cutout Fighter is 2D gaming art. Cutout Fighter's cartoon characters feature animated paper effects and avoid the bloody animation of many 2D Fighter games. Players choose from seven characters, seven unique game locations, Tournament or Single Game play mode, and three levels of difficulty in this highly customizable, fast and dynamic arcade style game.

Cutout Fighter features many fun-to-unlock upgrades for characters and settings. Upgradable characters have abilities that increase the game challenges and fun. Upgradable

and standard game settings include Paper City, Hospital, Secret Garden, Dream World, Savannah, Secret Base, and Beta Ground. Changeable settings and characters make this a dynamic game that players will enjoy. Players may play a quick game for a few minutes or an extended hours-long, skill-perfecting marathon.

Feature Highlights:

- * Fast and fun game
- * Retro, artistic pixelated graphics style
- * Animated paper effects, instead of blood
- * 1500+ hand-drawn, handcrafted images
- * 200+ stunning sound effects
- * Choose from 7 characters, including 2 secret characters
- * 7 Paper World settings to choose from, including 2 secret
- * Unleash 4 Deadly Paper Overdrives, killing opponent instantly
- * Classic, arcade style fighting control system
- * Choose from Single or Tournament game modes
- * Customize with one of three levels of difficulty
- * Game Center Achievements and Leader Boards via Apple's Game Center

Cutout Fighter offers players many options to customize the game. Players may choose levels of difficulty from Lame, Wicked and Insane levels. Players may adjust the volume or the music and sound effects independently, offering the chance to mute the background music while boosting sound effect levels. Both Quick Game and Tournament Mode settings offer the ability to customize the number of rounds and the length of each tournament, with lengths ranging from 120 seconds to the unlimited infinity play.

Cutout Fighter features over twenty player achievement badges based on performance during game play. Achievements include "I Did It!" a reward for successfully executing one Paper Overdrive, "No Time to Stop," received for playing for at least five hours, and "Score Grinder," an award for earning at least 100,000 points in Tournament Mode. Award badges are kept in a player's Trophy list and include information, by percentage, of how close a player is to receiving each badge.

Eligo Games has taken care to maintain the high quality and exquisite design for which they, the creators of Gods of Nibiru, are known. Available on the iPhone, iPod touch, and iPad platforms, Cutout Fighter can be found worldwide in the App Store. With upgradable options, Cutout Fighter can be downloaded for free Limited Time. Players may earn achievements and compare scores with friends and others via Apple's Game Center and Leaderboards.
