

Are you in the 3% that still relies upon product quality printouts?

Published on 04/24/12

Are you part of the 3% that still relies upon product quality printouts from suppliers? Auditweaver emails you product test results before they find their way to your loading dock. Auditweaver was developed to handle notoriously tougher communication and documentation sharing between outsourcers and their contract manufacturers. With auditweaver, you can set supplier production schedules, manage materials, conduct testing and set alerts internally, and with others in your supply chain.

Denver, Colorado - Are you part of the 3% that still relies upon product quality printouts from suppliers? Auditweaver emails you product test results before they find their way to your loading dock.

Auditweaver was developed to handle notoriously tougher communication and documentation sharing between outsourcers and their contract manufacturers. With auditweaver, you can set supplier production schedules, manage materials, conduct testing and set alerts internally, and with others in your supply chain. Being notified of important production and compliance checkpoints between companies is only available on our platform.

One Supply Chain

One supply chain, one app, many devices. Be up and running on auditweaver in minutes. Just download to your smart phone, iPad, laptop or PC to begin organizing your material and product testing. To connect, share data sets, and link compliance alerts is as easy as inviting your friends on Facebook.

Auditweaver is:

- * Company to company data sharing
- * Barcoding
- * Instant notification system
- * Product testing workflow from sample schedule to disposition
- * Certificate of Analysis and Chain of Custody reporting
- * Material and Sample data export to XLS
- * User panel with one-touch call, SMS, E-mail
- * Data import wizard
- * Document repository
- * Language support for English, Chinese, Spanish, French, Italian, Russian, German and Portuguese

Minimum Requirements:

- * iOS Version 5.0 or higher
- * Android Version 2.3 or higher
- * Mac OS X Version 10.5 Leopard or higher
- * Universal Binary for PowerPC and Intel
- * Windows OS version XP, Vista, or 7
- * >1GHz Processor > 5MB Hard Drive Space
