

DVDxDV Pro Introduces Direct Export from DVD to Apple TV

Published on 05/23/07

DVDxDV Pro, the software that unleashes the power of DVD, adds direct export from DVD to Apple TV.

DVDxDV Pro, the software that unleashes the power of DVD, adds direct export from DVD to Apple TV. Widely used in the television and film industry around the world, DVDxDV Pro converts DVD to high quality Quicktime movies for editing in Final Cut Pro, Avid, iMovie, and more. In addition to the Apple TV, DVDxDV Pro version will convert DVD video directly to the Fifth Generation iPod and to the iPhone.

DVDxDV Pro offers the highest quality conversion from DVD to various digital video formats. DVDxDV Pro is in use at many Hollywood studios and special effects companies. It has been used in the production workflow of the television shows, such as, Desperate Housewives, PBS Frontline, and the movie Charlotte's Web. DVDxDV Pro is priced at \$80 and can be purchase for direct download at <http://www.dvxdv.com>.
