

Contacts Duster Pro app now 75% off for limited time only

Published on 05/07/12

MyClickApps LLC announced today that it has discounted its Contacts Duster Pro app in celebration of the release of its newest app called Feedswire. Contacts Duster offers an easy way to clean up duplicate names, email addresses, or phone numbers. Easily view, merge and purge multiple entries. Feedswire will be an exciting new, simple and efficient RSS news aggregator that allows users to follow any news, from politics, tech, weather, and even Twitter from one place.

Wilmington, Delaware - MyClickApps LLC announced today that it has discounted its Contacts Duster Pro app in celebration of the release of its newest app called Feedswire.

"Both of these apps are great for anyone to own, and just to make it a little easier for everyone who wants to own them, we're taking 75 percent off the price of Contacts Duster Pro," said Muhieddine EL Kaissi, president of MyClickApps.com LLC, the creators of Contacts Duster and Feedswire.

EL Kaissi described Feedswire as an exciting new, simple and efficient RSS news aggregator that allows users to follow any news, from politics, tech, weather, and even Twitter from one place. He added that the app makes it easy to group feeds into channels, and share articles with friends. As for Contacts Duster Pro, EL Kaissi said, the app is a universal easy, convenient contacts management tool that analyzes user contacts and presents a full report in both list form and graph form.

"At a quick glance you will see exactly how many contacts you have and how many duplicates and zombies are contained within," EL Kaissi explained. "With the simple touch of a button you can merge and purge duplicate contacts in your address book."

Contacts Duster Pro, EL Kaissi noted, was developed to provide users with a simple way to view, merge, and purge multiple entries, such as duplicate names, email addresses, or phone numbers in users iPhone contacts. The app, according to EL Kaissi, also has an additional feature that allows users to manage contacts into groups with a visual pie chart that shows the address book partition. "Now anyone can have this awesome app for 75 percent off," EL Kaissi said.
