

## Total Downloader 1.0 for iOS - Easily Download Videos, Music and Images

Published on 05/16/12

App Ideas today introduces Total Downloader 1.0, its brand new entertainment app for iPhone, iPod touch and iPad devices. Total Downloader is a unique downloader and media player featuring a robust integrated browser. It allows you to instantly download any video, audio or image files embedded into any website. You can start multiple simultaneous downloads, pause and restart them whenever you want, as well as organize your files in a special archive, creating folders and subfolders.

Naples, Italy - App Ideas today is pleased to introduce Total Downloader 1.0, its brand new entertainment app for iPhone, iPod touch and iPad. Total Downloader is much more than a common downloader. Unlike competing applications it is a complete and robust browser with unique downloader and media player features. Thanks to its integrated browser, Total Downloader allows you to instantly download any videos or audio or image files embedded into any website.

Downloading any kind of files is as simple as 1,2,3:

1. Visit your favorite sites using the integrated multi-tab browser.
2. Start a video, select a photo or document on the website.
3. Click on the download button that automatically appears.

You can start multiple simultaneous downloads, pause and restart them whenever you want. After downloading, Total Downloader allows you to organize your files in a special archive, creating folders and subfolders. You can also set a password for each folder to protect your downloads from prying eyes.

You can create mixed playlists with audio and video files than can be played while the application remains in background! You can listen to music on your iPhone and use it just like a standard mp3 player. You can also access your download archive from your PC or Mac using high speed WiFi connection or USB cable (with iTunes). The playlist can be controlled by a remote control.

Browser features:

- \* Multi-tab fast internet browsing
- \* Private browsing mode
- \* Enhanced bookmarks and history management
- \* URL autocomplete and search suggestions
- \* Quick search
- \* Open link in new tab (or in new background tab)
