

Open Door Networks and Project A Rev Up Sports Car Apps

Published on 02/10/09

Open Door Networks, Inc. and Project A, Inc. announced that they are now shipping three iPhone sports car applications through the iTunes App Store. The new 99-cent "Lambo Envi" and "Porsche Envi" and the revamped "Ferrari Envi" mark the beginning of a new line of car Web-image browsing applications.

Ashland, Oregon - Open Door Networks, Inc. and Project A, Inc. ("We-Envision") announced that they are now shipping three iPhone sports car applications through the iTunes App Store. The new 99-cent "Lambo Envi" and "Porsche Envi" and the revamped "Ferrari Envi" mark the beginning of a new line of car Web-image browsing applications.

Ferrari Envi was We-Envision's most popular app over the past Christmas season. That app, enhanced with new 2009 models, is joined by ones devoted to two other classic sports cars: the Lamborghini, also out of Italy, and the Porsche, from Germany.

The "engine" underneath the hood of the sports cars apps, as well as We-Envision's 25 other "Envi" apps, is iEnvision. One of the "Top 10 iPhone apps to show off with," the iEnvision Web-image browser takes advantage of the iPhone's built-in Internet access and high-resolution multi-touch display to organize Web-based images into tap-and-play full-screen automated slideshows. The "Envi" apps are versions of iEnvision for specific topics.

Other families in the Envi product line include:

- * Art: Art Envi, Art Envi Deluxe and Hiroshige Envi. Art Envi was the number-one selling app in Japan for over a week
- * Space: Space Envi, Space Envi Deluxe, Earth Envi, Planet Envi, Mars Envi, Astronaut Envi
- * Fun: Haircut Envi, Dog Envi, Cat Envi, Comic Envi
- * Travel: Paris Envi, London Envi, Chicago Envi, Hawaii Envi
- * Outdoors: Parks Envi, Parks Envi Deluxe, Yosemite Envi, Mountain Envi

We-Envision also ships the myCard and new myCard Free contact exchange apps through the iTunes App Store. Details of the full product line are available at We-Envision.
