Published on 02/11/09

Longterm Solutions LLC is pleased to announce the addition of FileMaker 10 Server to its suite of hosting options. Available immediately, FileMaker 10 Server can be requested by any client wishing to put databases on the latest and greatest from FileMaker. The company hosts databases, web applications, and websites for companies and institutions all over the world, including large universities, telecoms, merchants, and small enterprises.

Nashville, Tennessee - Longterm Solutions LLC is pleased to announce the addition of FileMaker 10 Server to its suite of hosting options. Available immediately, FileMaker 10 Server can be requested by any client wishing to put databases on the latest and greatest from FileMaker.

Longterm Solutions has been hosting FileMaker databases and websites for almost 12 years. Started in 1997 by founder Bob Patin, its focus from the start was on FileMaker-powered websites. The company hosts databases, web applications, and websites for companies and institutions all over the world, including large universities, telecoms, merchants, and small enterprises. Clients are consistently pleased with the response time from Longterm Solutions staff, as well as the quick turnaround time with programming updates and requests.

Longterm Solutions provides a full suite of Internet products, including web, blog sites, email, DNS hosting, web hosting, FileMaker database hosting and MySQL database hosting. Its web servers support PHP and AJAX programming, audio and video streaming, WordPress, and many other modern protocols.

The Longterm Solutions server room is supported by a natural-gas-powered backup generator, multiple UPS systems, and its own cooling system. All databases are backed up hourly to three separate drives, regularly archived in a bank vault, and monitored by the support team. Websites are backed-up every 3 days and archived for retrieval if necessary.

All new hosting clients are always given a 30-day money-back guarantee; Longterm Solutions is proud of its uptime record of better than 99%.

For information about hosting or solution design, please contact Longterm Solutions for a free consultation.
