Hellerup, Denmark - Mark's Recording Studio is pleased to introduce iRock 1.0, their new guitar amplifier application for iPhone and iPod Touch. iRock is the perfect tool for musicians who need to remember an idea while on the road, or just want to practice with the right sound without waking up the neighbors.

Designed specifically to leverage the iPhone's unique abilities and interface, iRock features 6 different classic/modern amplifier simulations and 5 carefully modeled cabinet emulations (None, Marshall, 12" Speaker, Fender and Vox). iRock completes the package with studio quality High, Mid, Low Tone, Gain and Drive controls, with Stereo Delay and LFO contour. Musicians will appreciate the ability to save custom presets as well.

iRock also features a recording and playback function with a built-in file server for accessing recordings from a computer. And for those musicians who need a bit of inspiration, iRock provides a built-in audience to perform to. It's the ultimate on-the-go guitar based solution, and particularly suited for serious and amateur musicians alike.

Feature highlights include:

- \* Six Amp types and Five Cabinet emulations
- \* High, Mid and Low Tone controls
- \* Gain and Drive
- \* Stereo Echo with LFO
- \* Custom Presets
- \* Recording and Playback
- \* File Server for Downloading Recordings
- \* Includes an audience for inspiration

System Requirements:
