

Learn to draw dinosaurs step by step with iLuv Drawing Dinosaurs app

Published on 05/31/12

MyVijan LLC, the makers of top-rated learn to draw app series called 'iLuv Drawing', releases a new title 'iLuv Drawing Dinosaurs' for iPhone, iPad and iPod touch! Dinosaur lovers can now learn to draw many dinosaurs from T-Rex, Stegosaurus, Velociraptor to Gigantoraptor with traceable step by step templates! Like all other apps in the series, this app offers many options to edit, customize, decorate the artwork and share with loved ones.

Sunnyvale, California - MyVijan LLC, the makers of top-rated learn to draw app series called 'iLuv Drawing', releases a new title 'iLuv Drawing Dinosaurs' for iPhone, iPad and iPod touch! Dinosaur lovers can now learn to draw many dinosaurs from T-Rex, Stegosaurus, Velociraptor to Gigantoraptor with traceable step by step templates! Like all other apps in the series, this app offers many options to edit, customize, decorate the artwork and share with loved ones.

iLuv Drawing Dinosaurs is a great app to foster creativity and learning among kids of all ages who love dinosaurs or who would like to know more about them. The app also features the dinosaur sounds after the drawing is finished!

Total of 19 dinosaurs are included such as Apatosaurus, Brachiosaurus, Carnotaurus, Dimetrodon, Diplodocus, Parasaurolophus, Pterodactyl, Spinosaurus, Stegosaurus, T-Rex, Triceratops, Velociraptor, Ankylosaurus, Ceolophys, Gallimimus, Pachycephalosaurus, Gigantoraptor, Quetzalcoatlus and Scelidosaurus.

Voice instructions is a great feature not only for navigation but also to introduce kids to the different names of the dinosaurs, names of their body parts and their characteristics!

The intuitive interface and voice instructions are great for navigation through the app. The simplicity of the app helps kids focus on the process of drawing and many options for customization such as coloring, custom backgrounds and stickers are great for fun and creativity!

iLuv Drawing series of apps combines best features of drawing apps with blank pages, coloring apps with many customizable tools and how-to draw apps by offering a wide selection of drawings, thus making them best in the quality and content offered!

Features:

With 'iLuv Drawing' apps kids not only learn the basics of drawing but they learn many skills such as following simple instructions (voice and visual), fine motor skills, hand eye co-ordination, manual dexterity, focus, process following, and achieving a goal to promote self confidence, thus making iLuv Drawing apps great for various therapies, classrooms and for homeschooling:

- * Learn to draw by tracing over step by step templates
- * Very intuitive and easy to use interface
- * Friendly voice instructions
- * 19 popular dinosaurs to choose from
- * A vibrant coloring pallet to color the finished drawing
- * Many custom backgrounds and textures to add to the finished drawing
- * Add stickers to the drawing
- * Editing tools such as eraser, redo, undo, start over
- * Save in a drawing book or photos

prMac: Publish Once, Broadcast the World :: <http://prmac.com>

- * Print your masterpiece
- * Ability to edit the saved drawing
- * Blank pages to practice what you learned or freehand drawing

Why Choose This App?

- * Ideal for parents who are looking for educational value for their kids beyond blank pages
- * Also has blank pages to draw freehand
- * Learning the basics of drawing with many choices compared to any other app
- * More coloring, decorating and editing choices than any other learn to draw app
- * Lot of features, "learn to draw", "coloring", "decorating with backgrounds and stickers", "Use as greeting cards" or "Print" to hang on the wall
- * Building confidence with drawing and art in any age group
