

Tap & Talk - New Travel Apps Make Communicating Abroad Easy

Published on 06/05/12

iAplusApps has just released Tap & Talk, a new series of travel apps for iPhone that make communicating while abroad easy. Designed specifically for travelers, Tap & Talk can quickly and easily find a word or phrase among over 4,000 phrases and 2,000 additional common words. When in common situations such as at a restaurant, in a taxi, or asking locals for directions, users can navigate through the easy-to-use interface to find what to say with just a couple taps of the finger.

San Francisco, CA - iAplusApps.com has just released Tap & Talk, a new series of travel apps for iPhone that make communicating while abroad easy. Have you ever been traveling in a foreign country and could not speak the local language? This situation can be very difficult. With a simple interface designed specifically for travelers, Tap & Talk is the solution.

Unlike normal translator apps, Tap & Talk is designed for travelers who need to quickly and easily find a word or phrase. When you are in common situations such as at a restaurant, in a taxi, or asking locals for directions, you can navigate through the easy-to-use interface to find what you need to say with just a couple taps of the finger.

Features:

- * Over 4,000 phrases and 2,000 additional common words
- * 15 situational categories, including dining, shopping, accommodations, etc
- * Phrases and words spoken in audio by a native speaker, useful for ordering food or telling a taxi driver where to go
- * Use anywhere, anytime. Does not require an internet connection.
- * Bookmark words and phrases for quick reference
- * Write Tool allows you to draw diagrams or use handwriting when needed
- * Information Tab includes additional useful information, such as transit maps, unit conversions, etc
- * Simple, easy-to-use interface

Available for 8 Countries:

- * Tap & Talk - Go to France
- * Tap & Talk - Go to Germany
- * Tap & Talk - Go to Italy
- * Tap & Talk - Go to Spain
- * Tap & Talk - Go to Japan
- * Tap & Talk - Go to China
- * Tap & Talk - Go to Korea
- * Tap & Talk - Go to Taiwan

This is a very useful tool for all travelers, backpackers, vacationers, business people, and students. It is not meant to teach you the language, rather act as a communication tool so you don't have to learn the language. In fact, you can play the audio for whoever you are trying to talk to without trying to make the pronunciation yourself! Many questions also come with answers, so the non-English speaker can tap the correct answer to your question.

Device Requirements:

- * iPhone, iPod touch and iPad
- * Requires iOS 4.0 or later
