

LoopTube App For iPad to Autoplay YouTube Videos in a Loop

Published on 06/06/12

eFusion has introduced LoopTube 1.0, their new entertainment application developed specifically for iPad. LoopTube is designed to play YouTube videos one by one in a loop. It's perfect for everyday use to see favorite videos in a loop without tapping play next and fullscreen button. The Channel List is a list of all saved keywords. Just open the app and tap on a channel. New search results for the saved keywords will start to play one by one and repeat after playing the complete list.

Saitama, Japan - eFusion today is pleased to introduce LoopTube 1.0 app for iPad. Their entertainment application LoopTube is designed to play YouTube videos one by one in a loop. This is the application for everyday use to see favorite video(s) in a loop without tapping play next and fullscreen button. LoopTube makes it easy and simple.

If you frequently search YouTube videos with same keywords to see same type of videos in iPad than LoopTube app can make it more easy. It is possible to save search keywords in Channel List for repeated use. Here Channel List is the list of all saved keywords and favorite videos. Just open the app and tap on a channel. New search results for the saved keywords will start to play one by one and repeat after playing the complete list.

If you sick of to play next video by pressing Play Next button for YouTube. LoopTube will play the next video automatically when current video ends playing. If you want to play a single video repeatedly, LoopTube also includes this feature too.

Key Features

- * Search YouTube videos by keywords
- * Save keywords in Channel List for further use
- * Save a single video in Channel List for further pay
- * Single video/ Multiple videos loop play

Device Requirements:

- * Compatible with iPad
- * Requires iOS 4.3 or later
- * 4.5 MB
