Shanghai, China - Players can visit a fantasy world of dragons, with the release of the latest 1.4 version of Haypi Dragon, an epic MMORPG (Massively Multiplayer Online Role-Playing Game). This iOS app offers a journey where players can fight against dragons, complete quests, and find treasures. The game is a hit amongst MMORPGs with 1.5 million registered users.

Haypi Town is looking for a master of dragons who can defeat the evil forces that have put a spell on the land. Dragons, quests, treasures, and magic await players on this action-packed journey through the game. The savior of the land is accompanied by only one loyal companion, a dragon by the name of Roco, the Rock Stormer. He may be young and inexperienced, but he is not afraid of battling the powerful bosses that have been corrupted by dark magic: Leshy, the plant summoner, Lava, the fire trainer, Crystal, the ice blaster, and Angelo, the healer. Once a boss has been conquered, the curse upon them will break and they will join the player on their journey. The simplistic-but-vivid design of the game will provide addictive entertainment for hours!

Now, the developer Haypi Inc. is proud to announce that the latest 1.4 version will include more scenes, dragons and cool features such as an expression system added to the graphics. Most importantly, two new dragons have been added to the game: The super cute but naughty Shell and the mighty but wicked Devil. Such as the other master dragons from the boss levels, Shell and Devil can be obtained by the players only after a victory over them.

Boss Shell is an unpredictable little dragon that launches walking bombs at his opponents. He also has a mysterious bomb that can turn into one of three other bombs at random. Many players wish to have him because his attack methods are very cool and original.

However, numerous players were even more eager about the arrival of boss Devil, a wicked dragon who curses his victims and can heal himself with his Bat bomb. His amazing skills and his original looks make the players desire to control him.

As soon as the latest 1.4 version is released, Haypi hopes to see the player's feelings about the new bosses, written as stories in the 2nd "Haypi in Reflection" competition. In order to win an iPad3, an iPod touch, or 1000 in-game coins, fans of the Haypi games post their "Haypi and I" stories in the forum. Still no one knows who the winners are, because players can post stories until June 30th. The purpose of the competition is "to get to know the new players, renew the friendship with old friends and bring the exceptional players into light."

Players of the Haypi games are looking forward to reading the 3rd edition of the digital "Haypi magazine". The best posts from the 2nd "Haypi in Reflection" competition will be posted there. The magazine is an extensive platform for Haypi's fans to gather, to communicate, and to share what's meaningful for them.

Haypi Dragon is a FREE iPhone app, which enchants the gamers with its world of magic. The app will entertain anyone, whether it be a hardcore gamer or a first-time app user. This game is suitable for players of all ages. A download would ensure a great time!
