

A Maze Ing Kids - Kids maze game for your kids to play

Published on 07/14/12

Oryzano Game Mobile introduces A Maze Ing Kids 1.1 for iOS, its new maze game made for kids that challenges them to find their way to the finish point. Designed for children 2 thru 6 years old, A Maze Ing Kids helps your kids concentrate, forcing their brain to think, remembering, problem solving, figuring out the way to the finish point. The game helps your kids to gain knowledge on how to find, analyze, and remembering directions and paths, learning "how to get there". Learning it by playing.

Bandung, Indonesia - Oryzano Game Mobile is proud to introduce A Maze Ing Kids 1.1 for iOS. A Maze Ing Kids is a maze game made for kids (around 2 - 6 years old) that challenges them to find their way to the finish point. This game helps your kids concentrate, forcing their brain to think, remembering, problem solving, figuring out the way to the finish point. We made the mazes "not to hard" for them, some are quite easy, letting them to easily feel successful after a "hard work" on finding the finish point. Helps your kids to gain knowledge on how to find, analyze, and remembering directions and paths, learning "how to get there". Learning it by playing.

The screen where your kids will control on the gameplay only gives them a part of view of the whole maze, this gives their brain a challenge on remembering the path that they need to figure out with the only help of a maze map that only tells where the starting and the finish point is, but the position they are at and the directions they need to go is their job on remembering it an figuring it out.

This game has nothing to rush on, they can take their time, there is no time limit in the game. It's about finding the way to the finish point, with super smooth high resolution and cute graphic art, looks amazing with the Retina Display.

Features:

- * 16 super small size mazes
- * 4 medium small size mazes
- * Those mazes are divided in 4 Stages (groups)
- * More mazes and stages will be added on updates

If you want the REAL DEAL of a maze labyrinth game for YOU to play, large size and even super size mazes that really challenges your brain to think, then go check "A Maze Ing Labyrinth", available on the App Store.
