From the minds at CreeperWare, Vortex - The Escape 2.2, for iOS and Android, is a genre-defying blend of action platformer and puzzle game, allowing for both fast paced action gameplay and/or methodical puzzle play. Players control ENDR, a quirky robot, as he weaves his way through a myriad of testing facilities with the aid of his gravity-bending Vortex gun. Deemed obsolete and facing destruction, ENDR embarks on a quest though 32 levels to prove his worth.

Winter Park, Florida - CreeperWare has launched Vortex - The Escape 2.2 for iOS and Android, a genre-defying blend of action platformer and puzzle game, allowing for both fast paced action gameplay and/or methodical puzzle play. Players control ENDR, a quirky robot, as he weaves his way through a myriad of testing facilities with the aid of his gravity-bending Vortex gun. Deemed obsolete and facing destruction, ENDR embarks on a quest though 32 levels to prove his worth. During his trials he must defy gravity, travel impossible distances in the blink of an eye, and weave through environmental hazards (like shock inducing sewer waters and even toast-hurling toasters!) and more to make it to the exit door of each level.

The entire experience is a must-try for any portal fan, as the mind bending puzzles will no doubt be familiar to any fan of the franchise. Coupled with an energetic electronic soundtrack, Vortex is bound to provide hours of immersive mobile portal-flinging action!

As a reward for clearing a chapter of the game, players are rewarded with a cutscene and a skin to customize ENDR with.
