

Help Anyone World Wide Understand USA Geography and State Governments

Published on 07/20/12

Pirate's Moon, Inc. announces USALens 1.1, its second iPad application. USALens is an easy-to-use application designed to help both children and adults world-wide quickly understand United States of America geography and easily find information about the various USA States. The USALens quick-learn puzzle will help travelers and students visualize and remember USA geography. The app features read-aloud to hear accurate pronunciations, a browser, links to read about different States, and more.

Dover, New Hampshire - Pirate's Moon, Inc. announces the release of USALens(TM), its second iPad application. USALens is an easy-to-use application designed to help both children and adults world-wide quickly understand United States of America geography and easily find information about the various USA States.

The USALens quick-learn puzzle will help travelers and students visualize and remember USA geography. Turn on read-aloud to hear accurate pronunciations. Use the browser and links to read about different States. Print directly from the browser, or copy and paste into the email window and send information anywhere in the world. Available in Chinese, English, Russian and Spanish.

Features:

- * Easy-to-use interface
- * Quick-learn puzzle helps understand State locations by moving State puzzle pieces into place
- * After all States are correctly placed, State Capitals appear and can also be moved into their places
- * Read-aloud component that can be turned on to help with State and Capital pronunciations
- * Internet browser with many links to State web sites to provide information or research opportunities
- * Print useful information directly from USALens
- * Copy and paste into the email window to send information anywhere
- * Localized languages for Chinese, English, Russian, and Spanish speaking persons
- * An educational volume discount is available from the App Store
- * To maintain a 4+ rating the internal browser filters Wikipedia access to USA State pages only

Language Support:

American English, Chinese, Russian, Spanish

Device Requirements:

- * Requires iPad with iOS 4.3 or later
- * 3.0 MB

Pricing and Availability:

USALens 1.1 is only \$0.99 USD (or equivalent amount in other currencies) and available worldwide exclusively through the App Store in the Education category.
