Addictively simple with easy gameplay, Xplosion is chain reaction game, in which the user should make chain reaction of explosions to clear the minimum required balls needed to pass the level. To pass the level you should clear the minimum required balls. The game contains two types of gameplay, with Game Center Leaderboards and Achievements.

Sofia, Bulgaria - Innovative apps and games company, Borixo Mobile, today is pleased to announce the release and immediate availability of Xplosion Lite 1.0, their new gaming title for iPhone. Xplosion is chain reaction game, in which the user should make chain reaction of explosions to clear the minimum required balls needed to pass the level.

Xplosion is simple and addictive game with easy gameplay. The user should tap just once, but first should think where, to create a bigger chain reaction. Touch to start and explosion. The moving balls are sensitive to explosion and will explode in contact. To pass the level you should clear the minimum required balls. Make the biggest chain reaction of explosions to win more points.

The game contains two types of gameplay. The Classic type, where the user play different levels, and each next level is harder than the previous. The second type is Mega Explode type, where the user should make the biggest chain reaction of explosions, and to make the best score.

Try to beat the score of your friends in the Game Center leaderboards.
