

Macmanus releases the collection of Sandvox Designs on the Mac App Store

Published on 08/02/12

Macmanus today introduces Theme Designs for Sandvox 1.0, its first release supporting the popular web design application for Mac OS X. Designs can be used as a basis for creating amazing websites in a few simple steps. Users only need to choose the template, add text, upload photos and publish their website to the host directly from within Sandvox. Theme Designs for Sandvox application includes 5 templates - Bright Sky, Clinic, Consulting, Hunting Club and Love.

Kaunas, Lithuania - Macmanus today is pleased to announce the release of Theme Designs for Sandvox 1.0, its first release supporting the popular web design application for Mac OS X. Theme Designs for Sandvox is the first application on the Mac App Store to provide templates for web creation software - Sandvox. Designs can be used as a basis for creating amazing websites in a few simple steps. Users only need to choose the template, add text, upload photos and publish website to the host directly from within Sandvox.

Theme Designs for Sandvox includes 5 templates - Bright Sky, Clinic, Consulting, Hunting Club and Love. Templates are the best choice for creating personal or small business websites. Every template includes 7 pages: Photo and Video, Blog, Photo Album, Slide Show, Contact Form, Site Map and Empty. Some pages also come with additional sidebar or without it.

Consulting, Clinic and Bright Sky themes look solid and are great for business websites. Eye-catching details of Hunting Club template are suitable for leisure, traveling or action websites. Love design is full of romantic elements and is perfect for individual website. All of these templates can be used by people who want to share their hobbies, personal experiences or promote their businesses. Furthermore, all of this can be illustrated with pictures, videos and various other elements.

The main feature of Sandvox Designs by Macmanus is carefully crafted elements. Every element in the templates has intense colors and great quality. Furthermore, designs contain media placeholders, text boxes, several page layouts and other features. Creating website with Sandvox design is effortless, as material into placeholders can be uploaded via drag-and-dropping. Finally, there are many widgets to implement into websites and make them truly amazing.

Device Requirements:

- * OS X 10.6 or later
- * 64-bit processor
- * 4.6 MB
