Port Townsend, Washington - This weekend - March 7th and 8th, you can pick up Algoriddim's djay on macZOT for 40% off. djay is an award-winning piece of DJ and music playing software. Created exclusively for the Mac, djay perfectly integrates with your iTunes library and lets you start mixing your music right away. Unprecedented ease-of-use combined with powerful and innovative mixing capabilities make it the perfect tool for beginners and seasoned pros alike.

Mix and scratch songs with the turntable interface using the mouse or multi-touch finger motions on your notebook's trackpad - or just enable Automix mode for an automated mix with DJ-style transitions. Find the perfect next song using USB headphones before playing it through the main speakers. And even record everything in CD-quality to share your mix with the world.

djay supports all major audio formats like MP3, AAC, WAV, AIFF, Audio-CD and DRM protected songs from the iTunes Music Store. You can apply a full range of high-quality audio effects to your songs, including speed change, reverse playback, pitch-shifting, time-stretching, 3-band equalizer and Audio Units. Using the real-time Sampler, Live Microphone and Collaborative Mixing over Bonjour, djay allows you to interact with your music in exciting new ways.
