

## **Humble Daisy releases ProfCast 2.4.0 for Mac OS X**

Published on 03/10/09

Michigan based Humble Daisy is pleased to announce ProfCast 2.4.0, a significant update to their flagship lecture recording and podcast creation solution for Mac OS X. ProfCast is a versatile, powerful, yet very simple to use tool for recording lectures including PowerPoint and/or Keynote slides for creating enhanced podcasts. ProfCast offers an integrated workflow that makes creating, recording, and publishing podcasts easy. Version 2.4.0 includes numerous improvements and bug fixes.

Ann Arbor, Michigan - Humble Daisy is pleased to announce ProfCast 2.4.0, a major update to their flagship lecture recording and podcast creation solution for Mac OS X. ProfCast is a versatile, powerful, yet very simple to use tool for recording lectures including PowerPoint and/or Keynote slides for creating enhanced podcasts.

ProfCast is perfect for professionals and educators alike who need to provide a more flexible, richer media to supplement traditional pedagogical tools such as books, course packs, or notes. ProfCast is an ideal compliment to Apple's iLife Suite. With its integrated workflow, ProfCast provides a low cost solution for recording and distributing lectures, special events, and presentations as enhanced podcasts.

Feature highlights include:

- \* Records Live Presentations
- \* Supports Multiple File Formats
- \* ID3 Tags for iTunes U
- \* Integrated Podcast Manager
- \* Export to GarageBand
- \* Share to iWeb
- \* URL Linking
- \* Audio Playthrough Support

ProfCast sports live presentation recording, synchronization of slides with audio, Keynote and PowerPoint support, RSS generation and publishing support. All elements of a presentation, including slide timings, bullet point builds and voice narration are seamlessly recorded. ProfCast allows users to record their presentation as they give it, and also helps publish recorded presentations as enhanced podcasts, complete with RSS.

Based on customer feedback, version 2.4 includes interface improvements and bug fixes. Among the most significant additions to ProfCast is the new screen capture interface. "Screen capture allows users to integrate screen shots from other applications during their recordings." explained Dave Chmura, president of Humble Daisy, Inc. "ProfCast 2.4 makes adding screen captures much easier!"

Additional changes include:

- \* Added Improved Screen Capture interface
- \* Fixed Microsoft PowerPoint 2008 support on Mac OS X Tiger
- \* Fixed Bug with multiple presentations that resulted in slides being out of order
- \* Fixed Image scaling when using different sized slides and/or screen captures

Best of all 2.4.0 is a Free upgrade for registered ProfCast users.

ProfCast a unique utility that's easy to use and produces high-quality results. It remains the only innovative capture solution that records presentations and creates enhanced podcasts.

prMac: Publish Once, Broadcast the World :: <http://prmac.com>
