

Zevrix Solutions Releases InPreflight 2.6.7 for Adobe InDesign

Published on 03/16/09

Zevrix Solutions today announces the release of InPreflight 2.6.7, a maintenance update to its quality control, packaging automation and file info reporting solution for Adobe InDesign. InPreflight quickly gathers extensive information about document fonts, colors and links and lets users instantly locate potential problems according to preflight presets. The update provides the ability to report the color mode of Illustrator CS4 EPS files, which isn't available in InDesign.

Toronto (ON), Canada - Zevrix Solutions announces the release of InPreflight 2.6.7, a maintenance update to its quality control, packaging automation and file info reporting solution for Adobe InDesign. InPreflight quickly gathers extensive information about document fonts, colors and links and lets users instantly locate potential problems according to preflight presets.

InPreflight also includes a powerful packaging automation engine which allows users to preflight and package multiple documents. Among other abilities, it can collect all files into one folder, eliminating the need to collect the same links multiple times for each design. This is especially useful when collecting multiple InDesign files that share the same linked images. The savings can result in gigabytes of saved space and hours of production time.

The update provides the ability to report the color mode of Illustrator CS4 EPS files, which isn't available in InDesign. With InPreflight, users can instantly check the color mode of vector EPS files without the need to open each file manually. InPreflight is available for Mac OS X 10.4.2 and higher, a Universal Binary, and works with Adobe InDesign CS-CS4.

Pricing and Availability:

InPreflight 2.6.7 can be purchased from the Zevrix Solutions web site for \$99.95 (USD), as well as from authorized resellers. Demo is also available for download. Upgrade to InPreflight 2.6.7 is free for licensed users of version 2.2 and up, and \$40 (USD) for the users of earlier versions.
