

Juggernaut: Revenge of Sovering Blazes onto Desktops with Mac Launch

Published on 09/18/12

Mail.Ru Games takes its popular turn-based epic from mobile to Mac with the release of Juggernaut: Revenge of Sovering on the Mac Store. The dazzling 3D graphics dare Mac desktop and laptop players to defeat the evil Sovering, who has risen from dormancy to annihilate the natives of mythical Haradan. Selecting one of six legendary characters known as Scorpions, players must save Haradan by battling over 100 horrifying demons and completing numerous challenging and dangerous quests.

Moscow, Russia - Mail.Ru Games, the leading online games publisher for Russia, the CIS and Eastern Europe, takes its popular turn-based epic from mobile to Mac with the release of Juggernaut: Revenge of Sovering on the Mac Store. The dazzling 3D graphics that have held the iOS market riveted now reveal the world of Haradan in uncompromising detail to a whole new audience, daring Mac desktop and laptop players to defeat the evil Sovering, who has risen from dormancy to torment and annihilate the natives of mythical Haradan. Selecting one of six legendary characters known as "Scorpions", players must save the regions of Haradan by battling over 100 horrifying demons and completing numerous challenging and dangerous quests. Culminating in an epic battle against the terrifying Sovering, players must defeat the mythical creature to save Haradan.

Juggernaut: Revenge of Sovering sets itself apart from other titles by exquisitely blending its unique action sword-fighting components with RPG and strategy elements to bring never before seen depth and diversity to the genre. As they progress, players must gradually develop their hero's skills, attributes, and magic abilities while collecting an assortment of legendary armors and weapons. Each decision is crucial to the Juggernaut experience as each element impacts a hero's fighting style, appearance, and even their cinematic finishing moves. Employing a distinct approach to turn-based gameplay, players can choose from a host of different fighting mechanisms including swipes, taps, and buttons. An array of mini-games, including a lock pick mechanic and mimicking step-sequences, enhance gameplay even further. Moreover, Juggernaut: Revenge of Sovering includes stunning special effects, from blood spray and splatter that hits the screen to dust rising from the ground, flickering flames, and so much more.

Feature Highlights:

- * 6 customizable heroes to choose from
- * Mind blowing cinematic executions for each hero
- * 100 terrifying enemies to fight
- * 16 unique locations, from forests and deserts to cities and caves
- * 12 classes of legendary armor, countless items and weapons that change the appearance of your hero
- * 4 schools of magic and 12 battle spells for you to cast upon enemies
- * Numerous mini-games

"The release of Juggernaut: Revenge of Sovering on Mac brings the game full circle, a return to our desktop and laptop roots," said Alex Patsay, Head of Mobile Games at Mail.Ru. "We entered the US market intending to release a genre defining mobile game, one that broke through the clutter of the iTunes App Store and really took a whole new look at the limits of mobile apps. Juggernaut: Revenge of Sovering accomplished this feat and we feel that it is time for our non-mobile fans to enjoy this amazing game from the device of their choosing."

System Requirements:

- * Requires Mac OS X 10.6.6 or later
- * 423.0 MB
