

Mien Software Releases ScreenRecord Studio

Published on 03/17/09

Mien Software announced today the release of ScreenRecord Studio, an all-in-one screen capture production suite for Mac OS X. Easily capture on-screen action to a movie from start to finish. It includes everything you need to create a presentation. Import video clips, images and audio to create clear and powerful screen presentations. Maintain total control over all audio mixing and editing steps. Engage viewers with text and video transitions, and easily add voiceovers to personalize results.

Chico, California - Mien Software announced today the release of ScreenRecord Studio for the Mac, an all-in-one screen capture production suite. Easily capture on-screen action to a movie from start to finish. It's the best of both worlds: the power of MediaEdit and ScreenRecord.

ScreenRecord Studio includes everything you need to create your screen presentation. Import video clips, images and audio to create clear and powerful presentations. Engage viewers with text and video transitions, and easily add voiceovers to personalize your results as you maintain total control over all audio mixing and editing steps. Picture-in-picture narration is a breeze! It integrates seamlessly with QuickTime and iMovie.

Screen Capture:

- * Captures and records on-screen actions
- * Highlight key points using a fixed, smooth, auto panning, or scrolling camera
- * Change cameras live during capture
- * Record voice-overs or add your own music
- * Add transitions for a smooth presentational flow

Movie Editing:

- * Trim, split, and crop your clips
- * Unlimited video and media layers
- * Add chapter markers
- * Edit movies in HD, SD, or any size
- * Non-destructive editing
- * Multiple levels of undo
- * Color and lighting control
- * Add text, captions and credit effects
- * Add existing video clips or image files
- * Paint directly over your movie
- * Picture-in-Picture (PIP)
- * Capture from a DV camera or a webcam
- * Live previews and background rendering
- * Powerful yet easy-to-use timeline
- * Resize and position clip display region
- * Comes with standard effects, filters and transitions
- * Video composition: chroma keying, matte, hard light, etc.
- * Export to iDVD, QuickTime, DV, MPEG-4 and to the web

Availability and Pricing:

A free demo of ScreenRecord Studio can be downloaded online at their website. Full versions of the product can be purchased at the Mien Software store. The Suggested Retail Price (SRP) for ScreenRecord Studio is \$39.95 (USD).
