

Elixir introduces Espresso - New RapidWeaver Theme

Published on 03/18/09

Elixir is happy to announce Espresso theme for RapidWeaver. Espresso is a really flexible theme with a stylish appearance that allows you to showcase your content. Espresso allows you to modify a lot of different areas of your site design through the Page Inspector. Espresso also makes heavy use of the RapidWeaver color picker. With it you can change the colors for all of the following areas of your site design.

Orlando, FL - Elixir is happy to announce Espresso theme for RapidWeaver. Espresso is a really flexible theme with a stylish appearance that allows you to showcase your content. Espresso allows you to modify a lot of different areas of your site design through the Page Inspector.

Espresso offers:

- * Six header widths
- * Six body widths
- * Four sidebar variations (left, right, top, hidden)
- * Eight built-in stock logos, as well as the RapidWeaver logo placement (found in the site setup)
- * Three logo positioning options
- * Eighteen professionally design background, including the option to use the color picker
- * Twelve horizontal menu styles (Espresso is a split navigation theme)
- * Seventeen header stripe variations
- * Four header / slogan font choices
- * Three body font choices and three body font sizes
- * Three sidebar font choices and three sidebar font sizes
- * Three blog title font styles

Espresso also makes heavy use of the RapidWeaver color picker. With it you can change the colors for all of the following areas of your site design:

- * Site background
- * Body font
- * Sidebar font
- * Sidebar title
- * Links
- * Sidebar links
- * Sidebar background
- * Sidebar border
- * Site title
- * Site slogan
- * Blog entry titles
- * Sub menu font
- * Sub menu background
- * Sub menu bar current page
- * Sub menu selected current page font
- * Sub menu bar hover
- * Sub menu bar hover font
- * Blockquote background
- * Blockquote text
- * Footer type
- * Footer divider line

Moving into the future

For Espresso's sidebar and blockquote we're using a method for rounding the corners that

prMac: Publish Once, Broadcast the World :: <http://prmac.com>

is part of the CSS 3 standard. This is used on many popular sites and services like Twitter and Apple. It provides nice, lightweight, rounded corners and in older browsers that do not support it it degrades gracefully to normal squared off boxes as to not cause problems for your users.
