

PageNet Releases New Version of The Night Flier for iOS devices

Published on 10/01/12

PageNet today announces The Night Flier 2.1.1, an update to its popular game title developed for iOS devices. The Night Flier is an adventure arcade game where player navigates bat to conquer the night sky by flying over various locations. Wade through endless labyrinth of roofs, sneak past wild hungry cats, avoid meeting heavy bricks and fly up to the clouds dodging wild planes. Version 2.1.1 adds two new locations, shop for new items, with a completely new achievements system and more.

Moscow, Russian Federation - PageNet today is pleased to announce that the new version of The Night Flier game is now available for all iOS devices. The Night Flier is an adventure arcade game where player navigates game character to conquer the night sky.

In The Night Flier, the player is supposed to help bat in flying over various locations: the town, the cemetery, the underworld. To be successful one should wade through endless labyrinth of roofs, sneak past wild hungry cats, avoid meeting heavy bricks and fly up to the clouds dodging wild planes. Flier is also fond of eating midges, collecting coins and
