Fuji, a noble and daring young apple, takes on legendary powers in a quest to save his family from the evil King Lumbricus and his army of Wild Wacky Worms. Featuring low polygon-count, 3D objects and environments, the stylized game boasts elaborate texture maps and game physics. Gameplay involves touching left or right-facing arrows on the lower left of the screen, and tapping on the right side of the screen to jump or double jump. Players can move Fuji left and right by rolling him across a surface or jumping and moving simultaneously. In each of the 5 worlds, all platforms are natural objects native to the environment. In the Dash Mode players simply tap anywhere on the screen to jump and when Super Drappela slows time they will need to tap all of the enemies before the timer runs out.

Fuji can transform into one of the legendary Apple Avengers through power-ups. They include: Blossom, Bravo, Count Drappela, Frost, Lightning, Super Drappela, and Tombstone. Each has their own unique appearance and abilities, including spiked protuberances for crushing and propeller-head stems for flight. Players face more than 20 enemies and 5 epic boss fights. Enemies all have different fighting styles, including Chef Worms, Fighter Pilot Worms, Elf Worms, Fire Worms, Ghost Worms, Flying Chainsaws, and more.
