

Convertbot 1.0 for iPhone and iPod Touch Released

Published on 03/26/09

Tapbots is proud to announce Convertbot 1.0, their unit conversion program for the iPhone and iPod Touch. Convertbot is a unit conversion robot. Convert currency, length, mass, time and much more in an exciting new way. In addition to its innovative interface, our robot is smart enough to convert to and from mixed units. Convertbot allows mixed units like Foot + Inches, Pounds + Ounces, and more.

Flower Mound, Texas - Tapbots is proud to announce Convertbot 1.0, the first release of our unit conversion program for the iPhone and iPod Touch. Convertbot is a unit conversion robot. Convert currency, length, mass, time and much more in an exciting new way! Converting numbers will never again be a mundane task. In addition to its innovative interface, our robot is smart enough to convert to and from mixed units. Are you 5 foot 9 inches tall? Other converters require you to convert that to 5.75 ft in your head before being able to enter it. Convertbot allows mixed units like Foot + Inches, Pounds + Ounces, and more.

Feature Highlights:

- * Beautiful and unique user interface that makes unit conversions a joy
- * Mixed Units. Convert to and from Foot + Inches, Pound + Ounces, and Hours + Minutes
- * Large, well-placed input buttons with audio feedback to make data input effortless
- * Currency Rates automatically updated every time the app is launched
